

# Netbsd Mirror Sites

## NetBSD Mirror Sites

NetBSD Mirrors are available from the following sites as of March 17, 2016.

If you wish to become a distribution site for NetBSD, please refer to the [NetBSD Mirror FAQ](#) for more information.

Services:

- [AFS](#)
- [Anonymous CVS](#)
- [BitTorrent](#)
- [CVSup](#)
- [CVSweb](#) (browse the source code on the web)
- [FTP](#)
- [FTP Releng](#) (daily snapshots)
- [HTTP](#)
- [ISO images](#)
- [rsync](#)
- [WWW](#) (Website mirrors – not for downloading NetBSD)

**Note:** These links won't take you to any particular release of NetBSD, but rather to that site's "root" NetBSD distribution area.

Please use the mirror site closest to you. If you are experiencing problems with any particular mirror, please [let us know](#).
