

# Demonstrate an @ identifier

```
// Demonstrate an @ identifier.
```

```
using System;
```

```
public class IdTest {
```

```
    static void Main() {
```

```
        int @if; // use if as an identifier
```

```
        for(@if = 0; @if < 10; @if++) Console.WriteLine("@if is " +  
@if); } } [/csharp]
```
