Update two parameters in for loop

```csharp
using System;

class CommaOp1
{
const int StartChar = 33;
const int EndChar = 125;
const int CharactersPerLine = 5;

static public void Main()
{
for (int i = StartChar, j = 1; i <= EndChar; i++, j++) {
Console.Write("{0}={1} ", i, (char)i); if (0 == (j %
CharactersPerLine)) { Console.WriteLine(""); } } } } [/csharp]
```
