*/
// Use foreach on a two-dimensional array.

using System;

public class ForeachDemo2 {
    public static void Main() {
        int sum = 0;
        int[,] nums = new int[3,5];

        // give nums some values
        for(int i = 0; i < 3; i++) for(int j=0; j < 5; j++) nums[i,j]
        = (i+1)*(j+1); // use foreach to display and sum the values
        foreach(int x in nums) { Console.WriteLine("Value is: " + x);
        sum += x; } Console.WriteLine("Summation: " + sum); } }
[/csharp]
```
