*/
// Using break with nested loops.

using System;

public class BreakNested {
public static void Main() {

for(int i=0; i<3; i++) { Console.WriteLine("Outer loop count:
" + i); Console.Write(" Inner loop count: "); int t = 0;
while(t < 100) { if(t == 10) break; // terminate loop if t is
10 Console.Write(t + " "); t++; } Console.WriteLine(); }
Console.WriteLine("Loops complete."); } } [/csharp]
```
