

Gr(a|e)y

```
using System;
using System.Text.RegularExpressions;

public class MainClass {
public static void Main() {

Regex n = new Regex("Gr(a|e)y");
MatchCollection mp = n.Matches("Green, Grey, Granite, Gray");
for (int i = 0; i < mp.Count; i++) { Console.WriteLine("Found
'{0}' at position {1}",mp[i].Value, mp[i].Index); } } }
[/csharp]
```
