

Regex and letter case

```
using System;
using System.Text.RegularExpressions;

public class MainClass {
public static void Main() {

Regex q = new Regex(" in ");
MatchCollection mm = q.Matches("IN at in or");
for (int i = 0; i < mm.Count; i++) { Console.WriteLine("Found
'{0}' at position {1}",mm[i].Value, mm[i].Index); } } }
[/csharp]
```
