

LongCount with &&(and) operator

```
using System;
using System.Linq;
using System.Collections;
using System.Collections.Generic;

public class MainClass {
public static void Main() {
long count = Enumerable.Range(0, int.MaxValue).
Concat(Enumerable.Range(0, int.MaxValue)).LongCount(n => n > 1
&& n < 4); Console.WriteLine(count); } } [/csharp]
```
