

Second SkipWhile Prototype

```
using System;
using System.Linq;
using System.Collections;
using System.Collections.Generic;
public class MainClass {
public static void Main() {
string[] presidents = {"ant", "arding", "arrison", "Hayes",
"Hoover", "ackson"};
IEnumerable items = presidents.SkipWhile((s, i) => s.Length >
4 && i < 10); foreach (string item in items)
Console.WriteLine(item); } } [/csharp]
```
