

# SelectMany Prototype: with ? operator

```
using System;
using System.Linq;
using System.Collections;
using System.Collections.Generic;
public class MainClass {
public static void Main() {
string[] presidents = {"A", "Art", "Buch", "Bush", "Carter",
"land"};

IEnumerable chars = presidents
.SelectMany((p, i) => i < 5 ? p.ToArray() : new char[] { });
foreach (char ch in chars) Console.WriteLine(ch); } }
[/csharp]
```
