

Is a char in a range Exclusively

```
using System;
using System.Data;
using System.Text.RegularExpressions;
using System.Text;
class Class1{
static void Main(string[] args){
Console.WriteLine(IsInRangeExclusive('c', 'c', 'g'));
Console.WriteLine(IsInRangeExclusive('c', 'c', 'g'));
Console.WriteLine(IsInRangeExclusive((char)32, (char)31,
'Z'));
}
public static bool IsInRangeExclusive(char testChar, char
startOfRange, char endOfRange)
{
if (testChar > startOfRange && testChar < endOfRange) { //
testChar is within the range return (true); } else { //
testChar is NOT within the range return (false); } } }
[/csharp]
```
